The Department of Early Education and Care (EEC) licenses all *Children First* programs to serve a limited number of children and requires a specified child/staff ratio. Because of these facts, when you enroll your child, your contract reserves a specific slot in the program for which you register during the dates of that contract (including any exceptions to those dates) and you pay for care *prior to use, regardless of use* (unless prior arrangements have been made). You do not pay for care after you use it or by the hour. **It is your way of guaranteeing licensed care when you need it.** Adherence to your contract and timely tuition payments allows us to run our company, pay our bills, buy supplies, and pay staff. Fees will be assessed and discounts may be removed for late payments. Thank you in advance for your understanding and cooperation.

CHILDREN FIRST IS AN EQUAL OPPORTUNITY EMPLOYER AND PROVIDER.
